

be ready, be compliant:

One stop for primary and excess coverage

Kelly® and American Staffing Assurance Company develop a comprehensive suite of insurance solutions, exclusive to Kelly suppliers

Comprehensive coverage backed by industry insight

In partnership with American Staffing Assurance Company (ASAC), Kelly provides three cost-competitive solutions exclusive to its suppliers—Kelly Complete, Kelly Excess Liability, and Kelly Third-Party Crime. All programs are delivered with consultative industry expertise, eliminating a leading barrier for suppliers, and ensuring that many small- to mid-sized, niche staffing suppliers, and non-staffing independent contractors (ICs) or consultants are pre-qualified on insurance for all Kelly-managed programs, with limited exceptions.*

PEOPLE ARE TALKING!

Take a look at how the Kelly insurance program is helping companies like yours.

"I must say I was impressed with every aspect of the experience. The folks at ASAC responded to my needs in a way that far exceeded my expectations. Their sense of urgency seemed to align with mine. In addition, they returned a quote to me within 24 hours. Each person I worked with was very professional and patient with me and my many questions."

Ralph Harper, President
Dploit, Inc.

"I have used Kelly supplemental insurance on three accounts Kelly offered me. If I did not have this program, I would not have been able to staff on any of the Kelly accounts. Trying to apply for insurance as a small business on my own was very expensive and I could not financially afford to get it. Since I started using the Kelly Excess Liability program, it has truly helped me increase my company's bottom line and expand my business nationally."
